WEATHER SYNOPSIS BY REGION

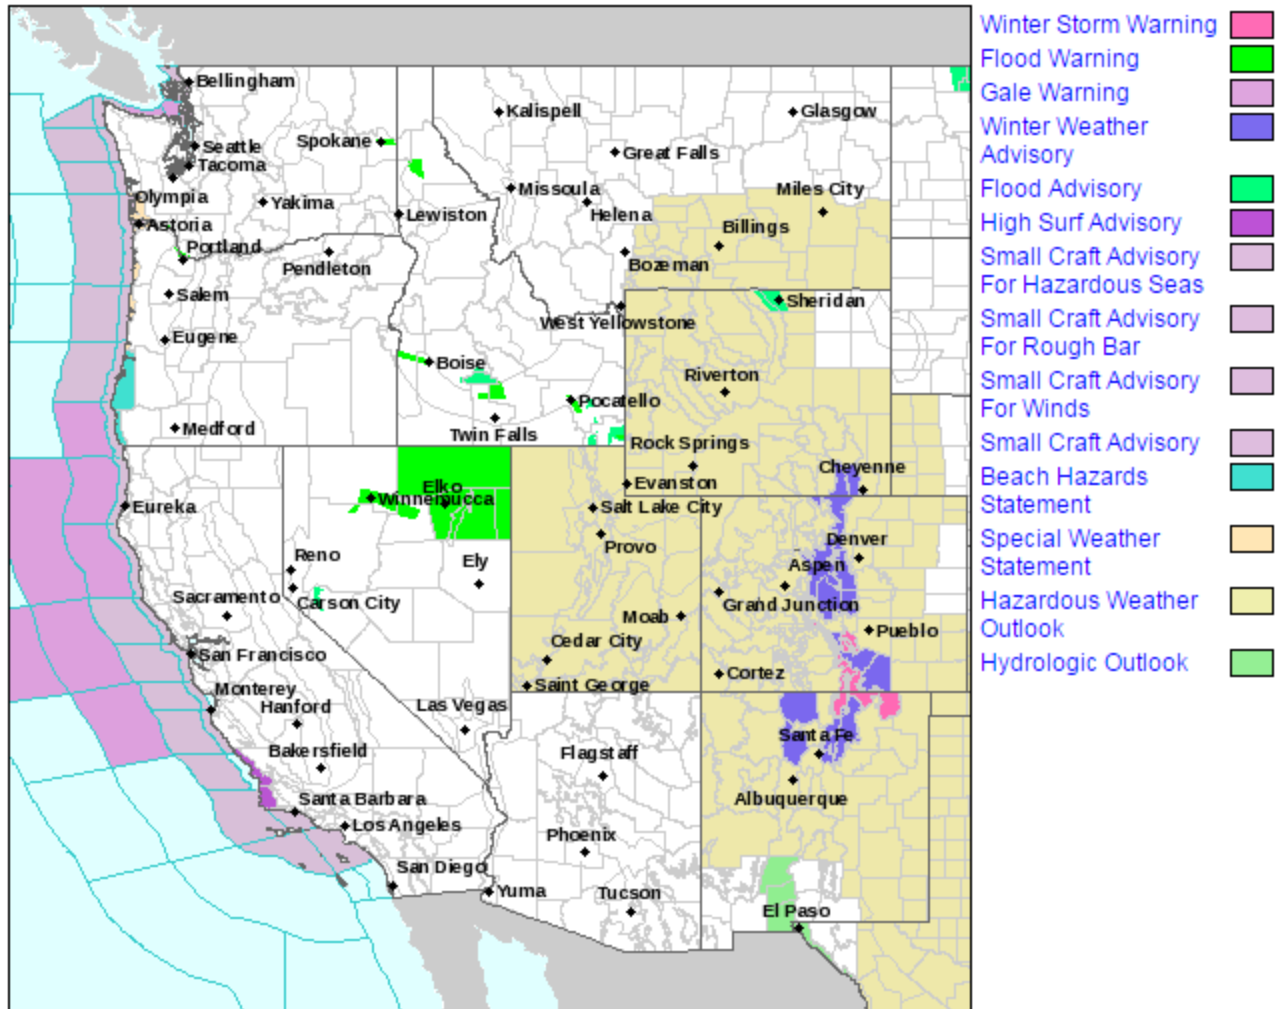

NORTHERN CALIFORNIA

High pressure will bring a mainly nice spring weekend to Northern California. Daytime highs should run from 10 to 15 degrees above normal. A weak weather system will flatten the ridge on Sunday bringing a slight threat of showers to the northern mountains and Sierra crest but otherwise, dry warm weather will continue over the second half of the weekend.

SOUTHERN CALIFORNIA

Skies have cleared today, but the atmosphere isn't really dried out, so there could be a few clouds over the mountains today and Saturday. High pressure aloft will slowly build over Southern California this weekend creating warmer weather and few clouds. Coastal clouds will be few and far between until Sunday.
